<ul style="list-style-type: none"><li>communication skills</li></ul>	<ul style="list-style-type: none"><li>Time management and team management</li></ul>

## EXPERIENCE

Code Master for digital services (KSA) March

2023 to February 2024 Frontend Web Developer

- Bringing Innovation: As a developer at Code Master Technology, I'm dedicated to bringing innovation to every project. Working primarily with React.js, I strive to push the boundaries of web interface design, constantly exploring new techniques and solutions to deliver cutting-edge experiences.
- User-Centric Approach: My work revolves around a deep understanding of user needs and behaviors. By prioritizing user experience, I ensure that the websites I develop not only meet but exceed expectations. Through intuitive interfaces and seamless interactions, I aim to create memorable experiences for every visitor.

- **Collaborative Spirit:** Collaboration is at the heart of my work ethos at Code Master Technology. I thrive in collaborative environments, where ideas are shared freely and teamwork drives success. By working closely with designers, engineers, and clients, I ensure that our projects are not just technically sound but also aligned with the vision and goals of our stakeholders.
- **Continuous Improvement:** I believe in the importance of continuous improvement. At Code Master Technology, I'm always seeking opportunities to enhance my skills and stay updated with the latest trends and technologies in web development. Whether through self-learning, training programs, or peer feedback, I'm committed to staying at the forefront of the industry to deliver exceptional results.

**Freelancer** March 2021 to Now.

## **Frontend Web Developer**

- **Craftsmanship in Code:** As a web interface developer, I approach my work as a craft. Each line of code is meticulously crafted to ensure efficiency, scalability, and maintainability. With React.js as my tool of choice, I strive to create interfaces that are not just functional but also elegant and intuitive.
- **User-Centric Design:** My focus is always on the end user. I believe that great web interfaces are born out of a deep understanding of user needs and behaviors. By incorporating user feedback and usability principles into my design process, I create interfaces that engage and delight users, ultimately driving business success.
- **Versatility and Adaptability:** In the fast-paced world of web development, versatility and adaptability are essential traits. Whether it's implementing complex features, optimizing performance, or troubleshooting bugs, I thrive on challenges and enjoy finding creative solutions to overcome them. My ability to adapt to changing requirements and technologies ensures that I deliver results that exceed expectations.
- **Passion for Learning:** Web development is not just a job for me; it's a passion. I am constantly seeking out new opportunities to learn and grow in my craft. Whether it's exploring new frameworks and libraries, attending workshops and conferences, or participating in online communities, I am committed to staying at the forefront of the industry and honing my skills to deliver exceptional results.

## **Frontend Developer** | Diyar Real Estate Platform (<https://www.diyarsco.com>)

- I worked as a Frontend Web Developer on the Diyar Al-Asalah website, which is built using Zoho Sites. I contributed to the project by implementing custom additions, such as customizing a carousel to display images for each project listed on the site.

## **TRAINEESHIP**

I learned Programming skills from Osama Elzero, Tarmeez Academy and Some YouTube Channels.

- Aug 2020 - Now YouTube.

## **EDUCATION**

Bachelor's degree in Mechanical Engineering:

Power Section. 2016 to 2022 Cairo, Egypt

Al-Azhar University
