PROFILE

Frontend Web Developer with **3+ years of experience** specializing in **Next.js** and **React**, focused on building scalable, high-performance, and SEO-optimized web applications.

Strong experience in developing modern user interfaces using **Next.js (App Router, SSR, SSG)**, **Tailwind CSS**, and integrating **RESTful APIs**. Possess solid working knowledge of **Vue.js**, with the ability to adapt quickly to new frameworks and project requirements.

Highly committed to writing clean, maintainable, and reusable code, collaborating effectively within cross-functional teams, and delivering user-centric digital products that meet business goals.

PROFESSIONAL EXPERIENCE

Frontend Web Developer

Diyarsco – Remote **2022 – Present**

- Built and maintained multiple production web projects, including **diyarsco.com** 🌐, handling UI design and customization using **Zoho Sites**.
- Developed frontend features for **Nemmra** using **Vue.js**, **Nuxt.js**, and **SASS**, focusing on responsive layouts and performance.
- Integrated frontend applications with **Laravel (PHP) APIs**, handling authentication, dynamic content, and data rendering.
- Designed and delivered the full frontend UI for **CMT Digital**, ensuring clean design and usability.
- Currently working on **Diyartech**, a property management platform, developing scalable frontend architecture using **Next.js**, with backend integration via **Node.js**.
- Applied best practices in clean code, component-based architecture, and cross-browser compatibility.

Frontend Web Developer (Freelance)

Remote 2021 – Present

- Built and delivered end-to-end frontend solutions for freelance clients using **Next.js**, **React**, and **Vue.js**.
- Developed reusable components and scalable UI architectures for small and mid-scale projects.
- Integrated RESTful APIs and handled dynamic data rendering across multiple projects.
- Improved website performance and user experience through optimization and responsive design.
- Managed projects independently, from requirements gathering to final delivery.
